☐ No, don't add me/us

TERMS AND CONDITIONS

Safety and Risks

Adventure Specialties Trust delivers a wide range of adventure activities that may involve heights (abseiling, rock climbing), water (ocean, lake, river), remote locations, tight spaces (caving), cycling (road and mountain biking), physical and emotional exertion, and driving (transportation to and from activities).

We prioritise safety. We are registered with WorkSafe as an *Adventure Activity Provider*. We are audited under the *Adventure Activity Regulations* by AdventureMark, New Zealand's largest adventure certification body. We have a comprehensive Safety Management System in place which includes risk management, safe operating procedures, and appropriate staff deployment.

Despite these precautions, it is important to acknowledge that adventure activities inherently carry risks, and total safety cannot be guaranteed. Serious, life-changing events or even fatalities are possible, including but not limited to drowning, falls from heights, motor vehicle accidents, collisions while cycling, and natural hazards such as volcanic activity, avalanches, rockfalls, landslides, and extreme weather events.

Additionally, due to the active and outdoor nature of our programmes, minor injuries such as insect bites, grazes, and sprains may occur from time to time.

By signing this form, you acknowledge and accept that there is a degree of risk to you and/or your child's safety. You also agree that you and/or your child will do your part to help manage these risks by following all safety instructions. If these instructions are not followed, you and/or your child may be excluded from the activity.

Medication

I authorise Adventure Specialties Trust to administer the following medications as required and within the manufacturer's guidelines: paracetamol and/or ibuprofen (for pain relief), loratadine (antihistamine for mild allergic reaction), loperamide (for acute diarrhoea) and salbutamol (inhaler) for asthma.

In the event of an accident or illness, I authorise the obtaining of such medical assistance as may be thought necessary by the staff of Adventure Specialties Trust at my expense. This may include administration of adrenaline, salbutamol and promethazine as per Standing Order for suspected anaphylactic shock or aspirin for a suspected heart attack.

Dietaries

AST will make reasonable efforts to accommodate various dietary needs but cannot be held liable for anything, including potential cross-contamination that may lead to adverse reactions.

Damages

I agree to reimburse the cost of any deliberate or malicious damage caused to private or public property, including (but not limited to) that which belongs to Adventure Specialties Trust.
